AMUSEMENT EQUIPMENT RIDES

Wheel coverings for Amusement Rides

LUC can provide you with standard high-performance materials, but also with specialties with even improved properties.

Characteristics of these specialties can be:

- high load bearing capacity
- low heat build up at high speeds
- very low rolling resistance
- improved water resistance
- low abrasion

LUC's products for amusement rides are:

- LUCOLLAN 93 - 98°A
- LUCANYL 95°A
- LUCPREEN-DT 95°A - 75°D
